Performance data represents past performance, but does not guarantee future results. Investment return and principal value will fluctuate; shares, when redeemed, may be worth more or less than their original cost; current performance may be lower or higher than the data presented. Current month-end performance is available at: 800-437-1020 or www.aquilafunds.com.

Class A shares have a maximum sales charge of 4.25%; Class C shares have no initial sales charge, but a 1.00% contingent deferred sales charge applies to Class C shares redeemed within 12 months of their purchase date. Class I and Y shares have no initial or contingent deferred sales charge. Class I and Y shares may only be purchased through an investment professional or financial institution. Class A Share MOP returns reflect deduction of the maximum 4.25% sales charge; Class A NAV returns do not reflect deduction of the sales charge and would be lower if that charge were reflected. Class C returns without CDSC do not reflect deduction of the 1% CDSC applicable in the first 12 months; if applied, the CDSC would reduce the performance quoted. An explanation of the share classes appears in the Fund prospectus.
