Information regarding holdings is subject to change and is not necessarily representative of the entire portfolio.

Investment Considerations: Mutual fund investing involves risk; loss of principal is possible. Investments in bonds may decline in value due to rising interest rates, a real or perceived decline in credit quality of the issuer, borrower, counterparty, or collateral, adverse tax or legislative changes, court decisions, market or economic conditions. The Fund's portfolio will typically include a high proportion, perhaps even 100%, of high-yield / high-risk securities rated below investment grade. High-yield corporate bonds generally have greater credit risk than other types of fixed-income securities and may be especially sensitive to economic and political changes or adverse developments specific to the company that issued the bond.

This material must be preceded or accompanied by a copy of the Fund's current prospectus. Before investing in the Fund, carefully read about and consider the investment objectives, risks, charges, expenses, and other information found in the Fund prospectus. The prospectus is available from your financial advisor, and when you call 800-437-1020 or visit www.aquilafunds.com.
